

**Mitch:**  
*Please*  
*help!*

Over two dozen of President Trump's nominees to become federal judges have been cleared through the Judiciary Committee, but they have been blocked in the U.S. Senate.\* Mitch, you have the power to fix this. *Please fix it and get these judges confirmed !*

**Call Senator McConnell and politely ask him to USE his power to get these judges confirmed.  
His number is (202) 224 2541**

# Senator McConnell: Please get the job done.

Name any important issue: Whether it is a government regulation telling you how to run your business, or the right of a child not to share a bathroom with a transgender adult - they will *all* be decided by judges.

That is why we need judges who will follow the Constitution, not political agendas. After all, judicial rulings have serious consequences.

Thankfully, President Trump has been nominating good judges and the Judiciary Committee has been approving them, but Senator McConnell has been holding up over two dozen nominations.\* We need him to pick up his game and *get these nominees confirmed*. He has the power to do so, and he needs to use that power and get the job done!

**Please call Sen. McConnell and with respect, ask him to please speed things up. Call (202) 224 - 2541**
